Education

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology June 2023 – May 2026
Computer Science Engineering, B.Tech *CGPA: 8.50*

Sree Dattha Group of Educational Institutions June 2020 – May 2023
Computer Management and Engineering, Diploma *CGPA: 7.78*

Sri Chaitanya School June 2019 – May 2020
Board Of Secondary Education *CGPA: 10.0*

Skills

Programming Languages: Python,C++,C,Java
Developer Tools: GitHub,Bootstrap
Databases: MySQL
Relevant Coursework: Data Structures and Algorithms,,Machine learning,CNN
Frontend:HTML,CSS,Javascript
Backend: Express.js,Node.js

INTERNSHIPS

Defence Research and Development Organisation DEC-APR(2022-23)

- Facilitated real-time identification and verification through the system, significantly promoting safer environments in public spaces, workplaces, and online platforms, contributing to reduction in security incidents.

CERTIFICATIONS

- **TechXcelerate Hackathon** -BITS Pilani,Goa
- **CodeVolt** -VIT,Chennai
- **TechXcelerate Workshop AIML** -BITS Pilani,Goa
- **Java Certification** – INFOSYS
- **Programming Essentials in Python** – Cisco
- **Next Gen Web Development: JavaScript AI Essentials** – UDEMY
- **Prompt Engineering for ChatGPT** – Great Learning

Projects

Money Management Web Application DEC-PRESENT(2024-25)

- Developed a robust money management web application, empowering users to track expenses, set budgets, and achieve financial goals, resulting in improvement in savings habits.
- Designed and implemented an intuitive financial dashboard with real-time analytics, enabling users to monitor spending patterns and reduce unnecessary expenses.

Crop Disease Detection Using CNN JUNE-DEC(2024)

- Devised a comprehensive technological solution for crop disease detection, equipping farmers with actionable insights and tools, resulting in increase in crop yield efficiency.
- Engineered an advanced crop disease detection system utilizing image processing and machine learning techniques, enhancing disease identification accuracy across 10 different crop varieties.

Facial Recognition Using CNN DEC-APR(2022-23)

- Developed a system by deploying deep learning algorithms, achieving a 82 accuracy rate in real-time facial identification across diverse datasets.
- Amplified security measures and streamlined user authentication processes, increasing identification accuracy by 40 and reducing verification time by 50.

Cyber Bullying Detection JUN-DEC(2022)

- Spearheaded a cyberbullying detection system leveraging machine learning to analyze social media text, identifying abusive content with 70 accuracy and enhancing online safety for users.

Career

Passionate computer science graduate with a solid foundation in Python and software development. Skilled in problem-solving, teamwork, and communication. Eager to apply knowledge to real-world projects and gain industry experience through a full-time role.
